## ELF HTX 740

---

Grade: 75W

This lubricant belongs to the specific ELF product line for racing : « LUB HTX »

### DEFINITION

Extreme pressure synthetic gear oil for racing motorcycle gearboxes.

### APPLICATIONS

All two-stroke motorcycle gearboxes operating under arduous conditions.  
Specially recommended for road racing.

### PROPERTIES

**ELF HTX 740** possesses all the properties to ensure excellent lubrication :

- Remarkable low friction quality,
- High extreme pressure capacity authorizing the gears to operate under the strictest conditions,
- Exceptional thermal and oxidation stabilities,
- High resistance to foaming.

*Caution* : no compatibility with the lubricate clutch.

### TYPICAL CHARACTERISTICS

Specific gravity at 15°C kg/m <sup>3</sup>	840
40°C viscosity cSt	21
100°C viscosity cSt	4,9
Viscosity index	167
Pour point °C	-42
Dynamic viscosity at -40°C, mPa.s	<150000

In order to maintain the high performances of this lubricant, it must be manipulated with attention on account of its advance technology.
